Escape to Old Florida...

ORLANDO, FL- as you float leisurely through reaching palms and flowering hibiscus on Wet 'n Wild's newly renovated Lazy River attraction. Drift away to "The Springs" and engulf yourself in thousands of bubbles and discover what made Ponce de Leon think he found the Fountain of Youth. Drift further into the alcove of the spring to find an enchanting waterfall spilling down a rocky hillside. Continue further still under rope bridges, past lush orange groves and through billowing mist. You'll never want to return to shore!

The Lazy River, first introduced by Wet 'n Wild – Orlando, has become a staple in most water parks today. As the originator of the modern water park favorite, it's no wonder Wet 'n Wild has made strides to perfect the attraction.

Many brainstorming sessions brought about the new theme for the area: Historic Florida. The relaxing current of the Lazy River sets the perfect tone to showcase Florida's yesteryears. Replicas of old Florida boat docks, rustic billboards and splashing water barrels give this long-time favorite a dramatic transformation.

The Lazy River is just one of the many exciting changes at Wet 'n Wild. Guests can also enjoy the newest thrill ride adventure – The Blast. It's a raging ride down a ruptured pipeline that will soak you to the core!

Open year-round with heated pools in the cooler months, Wet 'n Wild is located on International Drive, one block east of I-4 at exit 75A. For additional information, please call (407) 351-1800 or (800) 992-9453 or visit us on the web at www.wetnwildorlando.com.
